Lane Community College COVID-19 Dashboard

The LCC COVID-19 Dashboard provides information to the College and community about the results of COVID-19 reported by Lane County Public Health. While every effort is made to include all relevant cases, these data may not include cases that are not reported or tracked by Lane County Public Health, or any cases that are not reported to the College by any source. This data only reflects students and employees who have been found to have been on campus during their infectious period.

Any employee, student, or on-site contractor who has been diagnosed with COVID-19 should notify the college by emailing covidcompliance@lanecc.edu

Questions about this dashboard should be directed to covidcompliance@lanecc.edu

Identified Positive Cases

- Students Currently Isolated: 0
- Employees Currently Isolated: 1

- Cumulative Positive In-Person Student Cases: 7
- Cumulative Positive In-Person Employee Cases:9

Campus Locations Affected

- Building: *(this field will be populated as contacts are reported)*
    - Dates of concern: Building 18 - September 23

Note: If you are a student or employee considered at risk for exposure, you will be contacted directly by the COVID Compliance Official or Lane County Public Health. Please do not assume that you have been a close contact, or that you have had any contact at all with a person with COVID-19 simply because you have been in the same building, even if you have been in the building on the listed dates. Protect yourself and others consistently by wearing a face mask indoors, washing hands often, and sanitizing frequently-touched surfaces regularly. If you have concerns that you have come into contact with a person with COVID-19 on campus, you may contact the LCC COVID Compliance Official at covidcompliance@lanecc.edu.

Updated September 27, 2021

Definitions

Currently Isolated - This count refers to persons who *have tested positive for COVID-19* and have been instructed to isolate by Lane County Public Health. These counts include students and employees who are isolating as of the reporting date. For additional information, see the CDC definitions of Quarantine vs. Isolation.

In-Person Student - This count includes all credit and non-credit students who are registered in any course that includes any in-person instruction or lab during the term in which the COVID case is confirmed. In-person instruction or lab time varies by course.

In-Person Employee - This count includes any employee who has reported to campus in-person at any time in the 48 hours prior to either the onset of symptoms or a positive COVID test.

Cumulative Cases - This count includes all known positive cases for the 2021-22 academic year. This began June 21, 2021.

FAQ

What is the source of data reported in the LCC COVID-19 Dashboard?

Reported data is based on information received by the College from Lane County Public Health. LCC is not conducting COVID-19 testing on our campus; however, the College encourages employees and students to report their confirmed positive COVID-19 test using the LCC self-report form (form data will be shared with Lane County Public Health). Case counts in this dashboard represent the most current and complete data LCC has available, but may omit positive cases not reported to the College or Lane County Public Health. For county-wide data, visit OHA's COVID-19 Testing and Outcomes by County data dashboard.

How can I find out if I may have come into contact with an employee or student who has tested positive for COVID-19?

This dashboard will be updated within 48 hours of the time the College is notified of any new employee or student cases. To protect student and employee privacy and to comply with health privacy laws, no additional information will be provided about the identities of those employees or students who have tested positive, except as requested by local public health authorities in order to assist with contact tracing. Identifying students or employees by building, program, or course jeopardizes the College's ability to keep personal health information confidential.

All contact tracing will be conducted by the LCC COVID Compliance Official Lane County Public Health. If you have been identified as a close contact to a confirmed positive case, Lane County Public Health will also contact you directly as part of the contact tracing process.

It is important to remember that a positive case on campus does not necessarily mean that you (or any other employee or student) has been exposed to the virus. However, it's always important to follow safety measures such as social distancing, masks, and frequent handwashing to prevent transmission and protect yourself and those around you from potential illness.

How often is the dashboard updated?

As of Monday, April 19, 2021, the LCC COVID-19 Dashboard will be only be updated as positive cases are confirmed by the LCC COVID Compliance Official or Lane County Public Health.
